And so scholars estimate that it's about 2 million or 2.5 million people who left Egyptian slavery, which this is amazing. It shows the promises of God always being fulfilled.

9, in between chapter 1 and chapter 9, there's more census data and there's some of the law that is given to God's people. So clearly as we walk through the book of Numbers, we're not looking at every single verse, but we're looking at the major themes in this book to see how we live in the wilderness. And you're gonna see some other really insightful themes in this text. This is chapter 9, verse 15.

Up to above the tent, above the tabernacle of the testimony, and they would see during the day a cloud, and at night it appeared to be a pillar of fire. All they had to do was look up, and they would be reminded that God was with them. And then when they were told to move, to move the tent to another location, it was really simple when to figure out. The most complex movement in the ancient world, 2.5 million people, was decided by one simple question, is the cloud moving?

According to the scripture, you actually have it better than they had it because you don't look over there to a tent to see a cloud above the tent. You are the tent. Now, if you are new to the Christian faith, this may sound crazy, but understand this is what us Christians believe that when we placed our faith in Jesus, God sent the spirit of the living God to live within us. We are now the temple.

The Thames River, and he offered to buy the bridge. They dismantled the bridge piece by piece and shipped it to Lake Havasu, Arizona, and that bridge was rebuilt. Same bridge, reinforced, but it's actually a bridge from London. And there's all kinds of statues about it and photos, and it's an iconic picture there.
